# Matripor Plus

Highly Effective Non-Surgical Cosmetic Treatments

## GENERAL INFORMATION

### PRODUCTS

Electroporative Gels are especially formulated to improve Matripor effectiveness: they are based on cellulose derivative hydrosoluble, gelifying polymer with no charged functional groups to avoid any interaction with the active molecules ionization.

In every gel the most effective penetration enhancement available to enhance the diffusion rate of the molecules delivered with Matripor (INCI: Ethoxydiglycol, Propylene Glycol);

In every gel only high and recognized effectiveness active molecules with low molecular weight have been introduced (low O/W partition coefficient) and with one or more chargeable groups;

Due to the need to be able to see the penetration rates through the skin, no vegetable extracts have been used;

Every gel has a very high safety profile that permits its usage for a deep absorption.

### ADDITIONAL EQUIPMENT REQUIRED FOR TREATMENTS

Treatment Couch  
Tissues  
Trolley  
Towels  
Couch Roll  
Headbands

### TREATMENT INSURANCE

Matripor plus is a cosmetic procedure which requires no registration with the Health Care Commission. Therapists require an NVO level 3 or equivalent to operate the Matripor Plus
